### **ST GEORGE MINING WEBINAR WITH SHAREWISE**

St George Mining Limited (ASX: SGQ) (**St George** or the **Company**) is pleased to advise that it will present an online webinar hosted by Sharewise on Wednesday, 3 September 2025 at 11am AEST/9am AWST.

John Prineas, St George's Executive Chairman, will provide an update on developments at the Company's world-class rare earths and niobium Araxá Project and outline key milestones targeted for the next 12 months.

All our shareholders and other investors are welcome to join the webinar, and you can register for the event at the link below:

Attendees will be able to submit questions during the webinar using the Q&A function. The briefing will also be made available on the Company's website after the event.

### **About the Araxá Project:**

St George acquired 100% of the Araxá Project on 27 February 2025. Araxá is a de-risked, potentially world-class rare earths and niobium project in Minas Gerais, Brazil, located adjacent to CBMM's world-leading niobium mining operations.

The region around the Araxá Project has a long history of commercial niobium production and provides access to infrastructure and a skilled workforce. St George has negotiated government support for expedited project approvals and assembled a highly experienced in-country team and established relationships with key parties and authorities in Brazil to drive the Project through exploration work and development studies.

St George has been selected to participate in the Federal Government's MAGBRAS Initiative – a program aimed at establishing an integrated and sustainable rare earth products supply chain including the production of permanent magnets entirely within Brazil – and has signed a cooperation agreement with the State of Minas Gerais in October 2024 pursuant to which the State will assist in expediting permitting approvals for the Araxá Project.

These relationships underscore St George's strategy to integrate with the Brazilian government and business sectors, as well as the local community, to support unified and smooth progress in the development of the Araxá Project.

A world-class rare earths and niobium resource was announced by St George on 1 April 2025:
